

Task1 & 2

The screenshot shows the NoSQL Workbench interface with the Visualizer tab selected. The left sidebar contains the AWS database catalog, Amazon DynamoDB, Data modeler, Visualizer, Operation builder, Documentation, and Share feedback. The main area displays the 'Employee Data Model' with an 'Aggregate view' button. A feedback dialog is visible at the top right.

Aggregate view

Would you like to give your feedback? We would love to hear your experience in NoSQL workbench.

Employee | GSI: Name | GSI: DirectReports

Primary key	Attributes			
Partition key: LoginAlias	FirstName	LastName	ManagerLoginAlias	Skills
johns	John	Stiles	NA	["executive management"]
marthar	Martha	Rivera	johns	["software","management"]
mateoj	Mateo	Jackson	marthar	["software"]
jared	Jane	Doe	marthar	["software"]
diegor	Diego	Ramirez	johns	["executive assistant"]
marym	Mary	Major	johns	["operations"]
janer	Jane	Roe	marthar	["software"]

Task3

The screenshot shows the NoSQL Workbench interface with the Operation builder tab selected. The left sidebar contains the AWS database catalog, Amazon DynamoDB, Data modeler, Visualizer, Operation builder, Documentation, and Share feedback. The main area displays the 'Operation builder' with an 'Add connection' button. The 'Active connections' section shows four connections: Local:8000 Built-in DynamoDB local instance at 8000, Local:8007 Built-in DynamoDB local instance at 8007, Local:8006 Built-in DynamoDB local instance at 8006, and Remote: default.

Operation builder + Add connection

Active connections: 4

- Local:8000 Built-in DynamoDB local instance at 8000
- Local:8007 Built-in DynamoDB local instance at 8007
- Local:8006 Built-in DynamoDB local instance at 8006
- Remote: default
